

SDG&E® WILDFIRE RESILIENCE DRIVE-THRU SAFETY FAIRS

Due to social distancing and public health concerns as a result of COVID-19, SDG&E® is implementing enhanced community outreach efforts in 2020. As an alternative to annual Community Safety Fairs, we are offering drive-thru events to provide preparedness information to communities at risk for wildfires. **We are asking participants to please wear protective face coverings or masks to these events.** Please see the information below to learn more.

Come & join us for our 2nd Annual Wildfire Safety Fair

Fire season is around the corner and we want you and your loved ones to remain safe. Learn what you can do to protect your family and property as well as how to become more resilient. We've listened to feedback from your community and want to share safety tips that are relevant. You'll receive information about stocking an emergency kit, developing an emergency plan and designing or modifying the space around your home to resist wildfire. You can also learn about our Generator Grant Program, Public Safety Power Shutoffs and speak to our Meteorology and Fire Science and Climate Adaption team about what SDG&E is continually doing to keep the region safe. **See below for drive-thru dates and locations.**

BATES NUT FARM
